Professional Summary

Computer Science Engineering graduate with a **CGPA of 7.95/10** and hands-on experience in **Python, SQL, HTML, CSS, JavaScript, React (Basics), and MySQL**. Built academic projects in **IoT** and **Machine Learning**. Passionate about software development, backend engineering, and solving real-world problems. Seeking a **Trainee Software Engineer** role to contribute to innovative software solutions while continuously learning modern technologies.

Technical Skills

- **Languages:** Python, Java (Basics), JavaScript
- **Web Technologies:** HTML5, CSS3, React (Basics)
- **Database:** SQL, MySQL
- **Tools:** Git, VS Code
- **Core Concepts:** DBMS, Operating Systems, Computer Networks, OOP

Projects

Smart Home Automation System

- Designed and implemented an **IoT-Based Smart Home Automation System** to improve **home safety** and **energy efficiency**.
- Integrated **Fire Detection**, **Intrusion Detection**, and **Automatic Lighting Control** for real-time monitoring.
- Developed a user-friendly solution that automates household operations and minimizes manual intervention.

Face Morph Attack Detection

- Developed a **Deep Learning-Based Face Morph Attack Detection System** for secure identity verification.
- Applied **Image Processing**, **Feature Extraction**, and **Machine Learning** techniques to identify morphed facial images.
- Improved authentication reliability by accurately distinguishing between genuine and manipulated facial images.

Education

Bachelor of Technology (Computer Science and Engineering)

2022–2026

Jawaharlal Nehru Technological University Hyderabad (JNTUH)

CGPA: **7.95/10**

Certifications

- **Python Full Stack Development** – 10,000 Coders
- **SQL and Database Management**
- **Git & GitHub Fundamentals**

Languages

English Telugu Hindi
